Request for Renovation of the College Main Hall

Dear Respected Sir,

I hope this letter finds you in good health and high spirits. On behalf of the Principal, staff, and students of Velanai Central College, I would like to extend our sincere gratitude for your recent visit as the Chief Guest at zonal function in our school. Your presence was truly an honor, and we deeply appreciate your encouragement and support.

During your visit, you witnessed firsthand the current condition of our college main hall. As one of the leading schools in the Island Zone, with over 750 students, this hall serves as a vital space for academic and extracurricular activities, including assemblies, cultural programs, and important school events. However, due to years of use and limited maintenance, the hall is in urgent need of renovation to better serve our students and future generations.

After careful deliberation in a school committee meeting, we have unanimously decided to proceed with a renovation request while ensuring that two important aspects remain unchanged:

1. **The Traditional Hindu Temple** -Near the main hall must be preserved without any structural modifications.
2. **Dr. Withiyalingam Thuraisami Memorial Hall** - This name should remain unchanged as it stands as a tribute to a great leader,as it holds significant historical and cultural value to our institution.

We earnestly request your kind consideration in fulfilling this promise to renovate our main hall while ensuring these important landmarks remain undisturbed. Your generous contribution will not only enhance the learning experience of our current students but also benefit future generations.

We would be grateful for an opportunity to discuss this matter further at your convenience. Thank you once again for your invaluable support and commitment to the betterment of our school.

Looking forward to your positive response.

Yours sincerely,

Principal

V.E.GASTON ROY (SLPS-1)

04/02/2025

Mr. T. C. A. Danapala,

Senior deputy inspector general of Police

Northern Province, Jaffna.

Renovation of the college main hall of Velanay Central college Jaffna.

Dear Thilak,

First of all, I take this opportunity to extend my sincere thanks for the great corporation extended by you and your staff, enabling me to organize the meritorious event on 20/1/2025 at Velanay Central college in Jaffna quite successfully.

Also the hospitality displayed by you towards me and my family members during our stay in Jaffna was quite unmatched and we returned home with sweet memories because of your kindness.

Please see the annexed letter of request by Mr. V.E. Gaston Roy, the principal of Velanay Central college where we held our precious event of distributing school paraphernalia for children in Kayts police area on 20/01/2025. If not for the great support extended by the principal and the staff of the school, we wouldn't have held our event quite successfully.

Honoring his kind request and as discussed this matter over the phone by me with you, please take immediate action to refer these papers to the secretary of the education ministry of the northern province for the required approval enabling us to initiate the proposed renovation work in the near future. Looking forward to see you in Jaffna very soon.

Yours sincerely,

K. P. P. Pathirana

Senior deputy inspector general of Police (Rtd)

MAIN HALL

1. Roof Works

- Inspection and repair of the existing roof structure, including replacement of damaged sheets, beams, and supports as required.
- Extension of the roof eave to provide coverage between the hall and the kovil, ensuring adequate protection from weather elements.
- Structural assessment and reinforcement of the existing roof framework to withstand the additional load of the proposed solar panel system.

2. Ceiling & Interior Works

- Cleaning, patching, and painting of the existing ceiling with approved colour paint.
- Installation of a new ceiling for both side corridor areas, ensuring it matches the internal ceiling colour with approved materials.
- Installation of decorative moldings on top of existing interior columns, designed to match traditional Hindu kovil aesthetics with a contemporary interpretation, harmonizing with the institutional environment.

3. Doors, Windows Works

- Removal and replacement of existing doors and windows, along with required masonry works, as per the new architectural design. The dimensions and design will vary from the existing configuration.

3. Electrical Works

- Upgrading existing light fittings and electrical sockets to energy-efficient LED solutions, ensuring compliance with modern standards.
- Installation of a high-quality auditorium public address system, including speakers, microphones, amplifiers, and a control panel.

- Additional stage lighting system with spotlights and dimmable controls for enhanced visibility and ambiance during events.

5. Painting & Finishing

- Interior and exterior surface preparation and application of high-quality paint, adhering to the approved design and colour scheme for the auditorium hall.

6. Sustainability & Energy Infrastructure

- Installation of a solar panel system for the main hall and kovil to reduce electricity costs through the use of renewable energy.
- Provision of standby generators to ensure an uninterrupted power supply to both the hall and kovil, maintaining functionality during power outages..

7. Sanitary & Landscaping

- Construction of separate new male and female toilet facilities, along with a dedicated handwashing area for the hall, including the installation of a water tank.
- Landscaping around the hall and kovil area, incorporating native plants and paved walkways to enhance the environment, ensuring both aesthetic appeal and usability around the building.
- Repair and repainting of the boundary wall to improve safety and aesthetics.

8. Stage Works

- Inspection and repair of the stage flooring, backdrop, and supporting structures to improve durability and functionality.
- Installation of additional screening for stage performances, providing adaptable configurations for drama and other events.
- Enhancement of stage lighting with specialized fixtures for theatrical and performance use

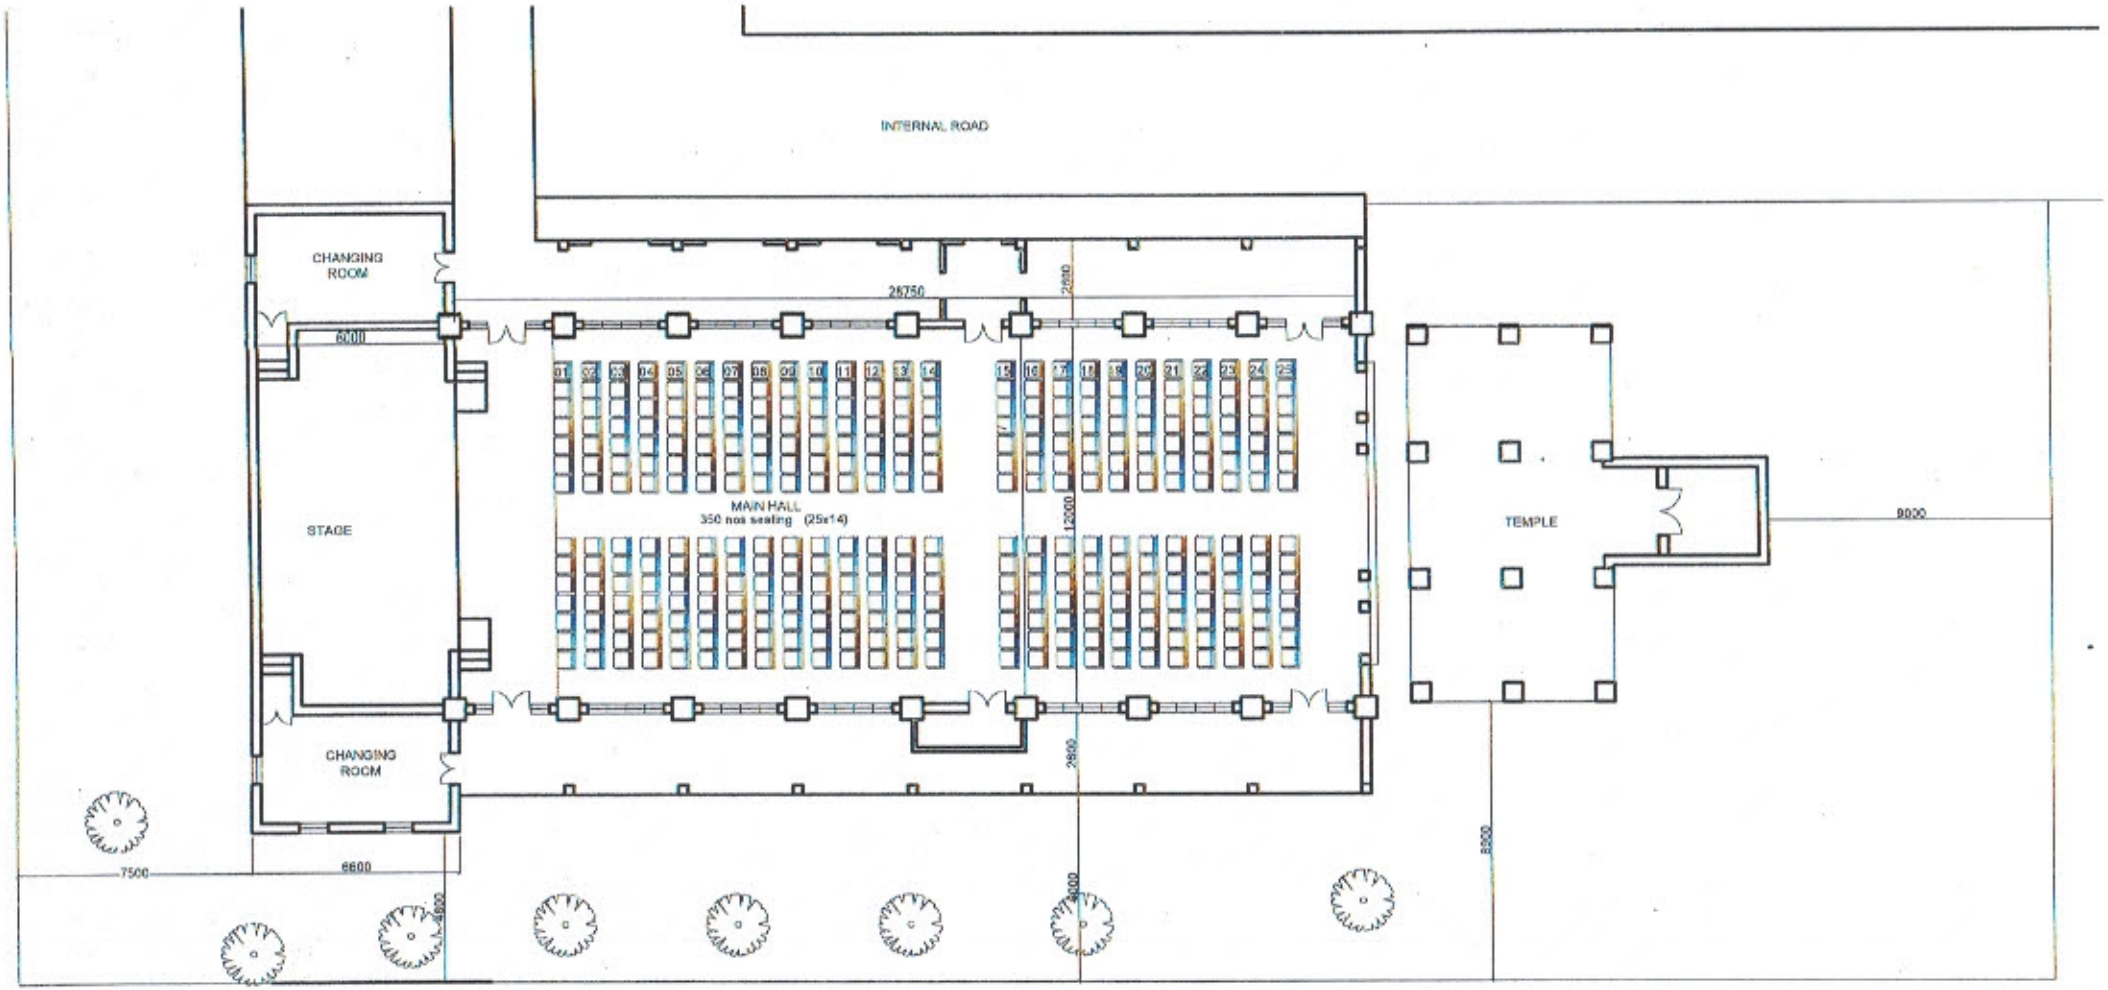

KOVIL

1. New Construction & Modifications

- Construction of a new Madappalli (a separate storage building for pooja equipment), providing a dedicated, secure, and organized space for religious artifacts.

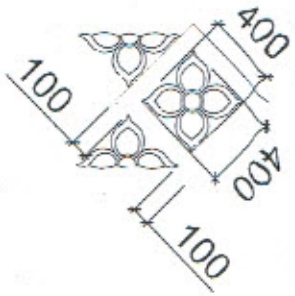

2. Boundary & Entrance Works

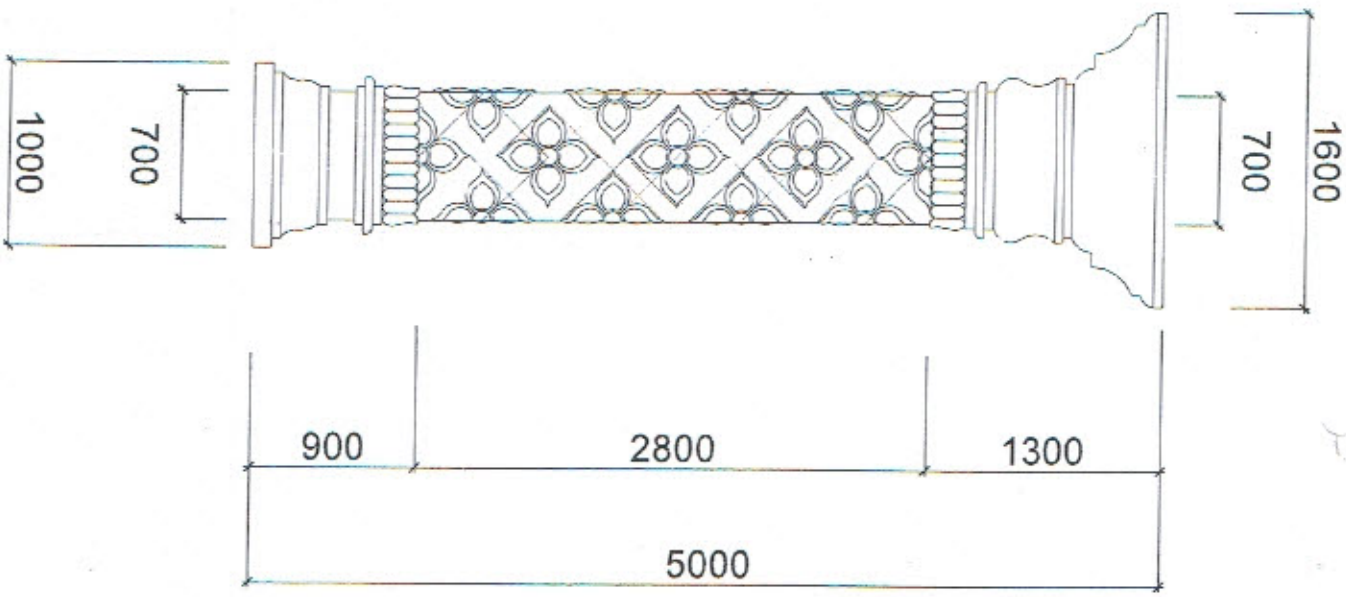

- Molding works and installation of external lighting for the existing boundary wall columns to enhance both aesthetics and visibility.
- Installation of grille work around the building to improve safety and prevent the entry of animals.
- Construction of a new entrance arch with decorative molding works, including intricate carvings.
- Removal of the existing bull statues from both sides of the entrance, with plans to rebuild or incorporate them into the new entrance arch.
